DREAMING AND WAKING.

BY MRS. ELIZABETH H. DODGE.

Love built a summer palace,
With pearl and ivory walls,
Where coast winds sang melodies
Through all the airy halls;
There wrapt in blissful reveries
I saw the wide, wide sea,
And watched the tall, white-shrouded ships
Sail evermore to me.

And evermore—and evermore
They floated toward the strand,
And their shining banners hour by hour
Were heaped upon the sand.

There were fruits from the blessed islands,
And all the summer breeze
Fanned the warm, warm, airy breathings
Far wafted over the sea.

My heart was ever yearning
From the jewel caverns deep
To see my dazzling argosies
Gem-laden homeward sweep;

And following waves caught rainbows
From the gorgeous silted gleam
Of costly freighted navies—
But this was a dream.

Again I stand upon the strand,<
Bewildered homeless, lone;
I hear the coming north wind's wail,
Dark clouds drive o'er the sun.

And dim and far the freighted ships
Fade o'er the distant foam;
Sailing—sailing ever away—
But never more they come.

I wildly call to the flitting sails,
I beg of the pitiless sea,
Of the dark'ning, cold, receding waves,
"Bring back my own to me!"

But seaward turns with all my store
The last, departing prow:
O! short-lived bliss! O! fleeting dream!
Alas! I'm waking now!

CHRISTMAS PLEASURES.

BY BRIDGET.

The great charm of the Festival is, that it makes us feel friendly both to the most opulent and most heretical of our species; and if the Yule who has been the cause of so much discomfort to the Church of England (ecclesiastical) can conscientiously bring himself to partake of plum pudding and mince pie, it is not wicked to hope that he may be able both to enjoy and digest them. It is no doubt a considerable misfortune, that the delicacies which belong to the season are so indigestible. But if there is ever a time when the human digestion rises with the emergency it is perhaps, at this one particular occasion, especially when egg-nog is handed round by a graceful and smiling hostess, who spares no effort to make young and old happy—in the good old-fashioned way.

Unless imagination and romance came to the rescue and assisted us, most people would possibly tremble at the prospect of devouring the fare of which religion and custom bids us during Christmas week to partake. Every person of ripe years knows this, and various fictions have been invented for the express purpose of nerving us to achieve the feat. The mince pie which is perhaps the most formidable difficulty, has been taken under the special patronage of woman. Those who instinctively shudder at the thought of venturing upon the unknown mysteries which mince pies contain are spirited on by the feminine legend, that matrimonial happiness lurks inside it; and when American and English ladies lead the way, English and American gentlemen at any risk of future misery, are naturally compelled to follow. And even if Christmas eatables considered from the point of view of health, and a long bill from the grocer, it is a comfort—or ought to be, which is the same thing—to remember how many there are in every domestic circle who thoroughly appreciate them. Half of the pleasures of Christmas consist in the thought of the happiness of young people—(no where in the world is this so well understood as in Dutch Flat,) and even if sober years have led us to the conclusion that mince pies, plum puddings, fruit cake and candies are not an unalloyed delight, it is a good deal to know that English and American boys relish the luscious mixture with perfect and simple enthusiasm.

As the world goes on, one illusion after another breaks down; and life would be more or less a melancholy affair, if we were not able to fall back upon our old reminiscences, and to refresh ourselves by the sight of the illusions of those who are younger and more impressible than ourselves.

Christmas is the great occasion on which we are warned to do this. When we see our children absorbed in the observation of snap dragon and mince pie, our memories become fresh and green—tears will be held back—but our gentle mother, our fond father, our aly and frolicking brothers and our fondly loved sister—all—all are for the moment present, and anon, we are able to throw ourselves into the new, wholesome pleasure, by proxy.

Life does not seem so very barren, if we reflect on the young tribe who are still in the happy stage, when a pantomime seems a fairy land, and a mince pie and Christmas tree the most enchanting amusements. Thanks to the share which children take in the festivities of Christmas. An old fashioned Christmas is the means of binding a man firm and fast to the recollections of his old life. Baseness and dissipation carry people into the daily vortex of society, excitements, trouble or enjoyment, as the case may be. They become too absorbed in the moment to survey life as a whole, or

to enjoy the innocent pleasures of memory or nature, or imagination. Once a year at any rate Christmas sets this right. From the shadow into which they have moved, they pause and look back one evening in each December in the sunshine they have left, and are forced to give themselves up to the observation of the young generation that is hurrying up at their side and that is destined to sit in their places when they are gone.

It has been said of the Englishman that to prove his appreciation of a hero he has to eat and drink himself up to the mark, and that it is chiefly after dinner, that his heart begins to expand. Hem! Anybody who has taken the trouble to go through the "Swiss Family Robinson" watching a Swiss at his potatoes, cheese and grapes; a German at his sausage and lager beer; a New Yorker at his turtle soup; a Frenchman at his shad breakfast; a Californian at his slap-jacks, or a Frenchman at his *paix de sein grain*, will probably soon come to the conclusion that voracity does not confine itself to John Bull. I tell you—one of the above-mentioned thorough-goers would soon drive ordinary Britons to despair. Nothing is more astounding than the facility with which they ship their various courses, except of course, the ease with which a school boy at a rustic *fete champêtre* takes in a cargo of cakes, fruits and candies.

The reason that John Bull prefers to combine his charitable or his political commemorations, with plenty of provisions, is not so much that he has to feed himself with a good humor, before he can make up his mind to be enthusiastic as that—with Jonathan he likes the idea of open handedness and liberality which is suggested by good cheer!

The pleasure consists not in the dishes, but in the train of associations which profusion brings.

It is probable, if not certain, that the enjoyment of Christmas by the poor is very great. At this welcome period the Burles of the world are understood to relax: even the work-house pauper, or the denizen of San Quentin is not excluded from the general joy. Yet after all, the thought that there are so many people in the world to whom a good square meal twice in one day is a great and extraordinary event, though this thought comes in the train of Christmas, is not otherwise than a gloomy one. It is quite right that it should come to us, if it only comes to us once a year, and if it comes to us in the middle of a Christmas banquet, it will do no harm. When all is calculated and weighed, the sum of the world's pleasure falls far short of the world's pains—the pleasures of children, and the merriment of Christmas merry-making go far to make up the side of the account. The side of the balance is weighed down by the innumerable cares and anxieties, the hunger, and the trouble and the weariness so rife among mankind which seem all the darker for the one gleam that breaks over the prospect at Christmas time. The waste of energy and life, and the waste of pain with which the world is full, are far more than all the other waste of nature with which natural philosophers are familiar. Christmas, and the events which Christmas is supposed to commemorate are properly considered as so much gain; but at the test, there is a lesson even in the idea of Christmas, and in the idea of Christmas pleasures, which sensible men and women can never forget, and which on occasions, it befits them openly to recognize.

A WOMAN'S FRIENDSHIP.—It is a wondrous advantage to a man, in every pursuit or vocation, to secure an adviser in a sensible woman. In woman there is at once a subtle delicacy of tact and a plain soundness of judgement, which are rarely combined to an equal degree in man. A woman, if she be really your friend, will have a sensitive regard for your character, honor, and repute. She will seldom counsel you to do a shabby thing, for a woman-friend always desires to be proud of you. At the same time her constitutional timidity makes her more cautious than your male friend. She therefore, seldom counsels you to do an imprudent thing. A man's best female friend is a wife of good sense and heart, whom he loves, and who loves him. But, supposing the man to be without such a helpmate, female friendship he must still have, or his intellect will be without a garden, and there will be many an unheeded gap, even in its strongest fence. Better and safer, of course, such friendships where disparities of years or circumstances put the idea of love out of the question. Middle life has rarely this advantage; youth and old age have female friendships with those much older, and those much younger, than ourselves. Female friendship is to a man the bulwark, sweetener, ornament of his existence.

HOMICIDE IN TUCUMCANE.—The Sonora Herald, of Saturday last, says that on the 3d instant, an affray took place at Gilson's Mill between the engineers, Wallace, and his assistant, a man named Fowler. The latter was pursued by Wallace with a large knife, and finding a spade turned and struck his pursuer over the head, fracturing his skull, from which injury he died soon after.

JOHN W. FORNEY declines to be a candidate for the United States Senate, and advocates the election of Thaddeus Stevens.

SEMI-WEEKLY ENQUIRER.

SATURDAY, DECEMBER 15, 1886.

CITIZEN'S MEETING.—The citizens of Dutch Flat met at the Express office of Wells, Fargo & Co., on Thursday evening last and organized by electing E. H. Gaylord, Chairman, and E. B. Boush, Secretary. Mr. Mathewson, by request of the Chairman, stated the object of the meeting to be to devise ways and means to build a wagon road from this place to Bear river to connect with a road from Little York and You Bet. On motion it was decided that a committee should be appointed to solicit subscriptions to this end, and that the subscribers should afterwards incorporate themselves into a joint stock company. From the report of the engineer the building of the road will cost \$2,900, on a grade not exceeding 12 inches to the rod. The members of the committee to solicit subscriptions: J. P. Mathewson, Charles Adler, M. S. Gardner, Dr. D. W. Strong, P. Nichols, C. Seffens, S. Y. Halsey, E. C. Uren and C. Palmstag. The matter is now in the hands of the committee, and it only remains for those engaged in business whose interests would be enhanced by having good communication with the surrounding country to see if they will be content to longer lose the profits arising from a lucrative trade, or, by a small investment place themselves in a condition to successfully compete with those whose foresight hitherto has enabled them to bear off the lion's share. As soon as subscriptions were called for, the sum of \$1,025.00 was subscribed, and the committee express strong hopes of getting the balance subscribed in a few days.

Since the above was written the committee have procured a thousand dollars more.

SUPPORT YOUR HOME PAPER.—The Washoe Eastern Slope has just entered upon its second volume and rather congratulates itself upon the fact of having lived out the year. It winds up its notice with the following pertinent language which would be equally applicable to some other communities we could name:

"If you want a better paper than you have had, give us a better support, advertise and subscribe in advance (we have no intention of running away) that we may be enabled to give our attention to our editorial duties instead of casting about for the wherewithal to procure our next meal. Fill up our columns with home advertisements that we may not be compelled to publish quick advertisements at a nominal price in order to save the labor of composition, get your job work done at home and pay the necessary price, rather than send your money abroad for the support of a population in San Francisco that never contributed a dollar to the printer who pays you."

S. P. MOORE.—It will be remembered that this gentleman, one of our oldest and most esteemed citizens left this place about the first of September last to join his family in the Atlantic States, since which time his nearest friends in this place have not heard of him save once, a few days ago, Mr. Mathewson received a letter from Mrs. Moore, stating that Mr. M. had been dangerously ill at Niles, Michigan, on the 15th, that the physicians pronounced his recovery doubtful, etc., but that on the 17th he had much improved and was considered out of danger. We trust he will soon recover and gladden the hearts of his many friends in this place by his presence.

CAVE IN A MINING CLAIM.—We learn says the *Gazette* of the 12th, that a cave occurred in the cement mining claims of Coxson & Garber, near Red Dog, on Sunday last. The cave took place in the ground that had been drifted out in Missouri ravine, and was probably caused by the water soaking down and loosening the earth. Fortunately, no one was working in the mine when the ground caved. The ground is so situated that the water in the ravine now makes its way into the mine, and the work of drifting out the gravel has been suspended for the present, though the pump is kept running to free the mine of the water.

FIRE AT MEADOW LAKE.—We learn from a gentleman recently from the upper part of the country that a fire occurred at Meadow Lake on Tuesday morning last in a commission store on B street, which was entirely destroyed together with a bakery establishment adjoining. The flames were finally arrested by the citizens pulling down a building adjoining the bakery, and which, it is thought, saved the town.

A YOUNG man named Zera Barr was accidentally shot and instantly killed at Visalia on the 30th ult., by a man known as J. E. Benn, who is said to have been inebriated at the time. Young Barr is said to have been beloved by all who knew him.

ENLARGED.—The Grass Valley Union comes to us enlarged and otherwise typographically improved. It now furnishes its readers with seven columns of reading matter. It looks well.

INFORMATION is wanted of Wallard K. Thompson who is supposed to be working on the railroad. Any information concerning him will be thankfully received at this office.

THE citizens of Meadow Lake are determined to keep the road open from that place to Cicero during the winter. Lately they turned out en masse and broke a road to Enterprise, a distance of six miles.

WILL IT BE NECESSARY.

We notice that the Union members of Congress determined in caucus to introduce a bill calling an extra session on the fourth of March next. At that time the terms of our members of the House of Representatives will expire, and as it is necessary that our State be represented at all times and on every question, it will, we think, be necessary to hold a special election for that purpose. In order to be prepared for this emergency the State Convention should immediately convene and take such measures as may be necessary to accomplish the registration of all the Union votes in the State, make such recommendations to the several District and county Central Committees as would enable them to carry out the work of holding the primary elections at the earliest possible moment. The matter as to who shall be the next Representatives does not at this time enter into the calculation as to the necessity of an action on the part of this State. The fact that there are several aspirants for those honorable positions in each of the three congressional districts from among whom the very best material can be obtained ought to be sufficient guarantee that the interests of the State will not likely suffer should the people decide on sending an entire new delegation to Congress; we do not, however, mean to be understood as being dissatisfied with the course of our present members, far from it; they have invariably been found battling for the principles of the party which were endorsed by their constituents since their induction into office, and no one of candor and honesty can withhold from them the meed of just praise earned by adhering strictly both to the interests and advancement of the Pacific coast and the tenets of the political party which clothed them with the robes of office. But the most pressing necessity connected with a special election of members in this State, at this time, is the registration of the members of the party. A large number of persons have neglected this important matter, thinking they could do so next year in ample time for all practical purposes, whereas, should there be a special election had—of which we think there is no doubt—many, very many of the Union voters in our State would be disfranchised, an event at this juncture of political affairs, not to be thought of calmly. We therefore urge all those who have not as yet registered their names to lose no time in doing so.

It is rather amusing to note the difference of tone, manner and style of the so-called Democratic papers in speaking of the President now and two weeks before the news reached us of the veto of the Freedmen's bill. One paper, that thought the President sincere in his many professions of Unionism and his sympathy with the poor negro would not even accord to him the courtesy of a Mr. styling him "Johnson," who occupies the Executive chair. Now, presto, the tune changes; the same paper is cringing servile and contemptibly and ridiculously polite. It lauds the late message of the President in the highest terms, predicts for it the wonder and approval of all sages for centuries to come, and advises its benighted readers to lay it away to be handed down to future generations as a document worthy to accompany the farewell address of the "Father of his Country," and the Declaration of Independence. Bah!

SUPPOSED MURDER BY INDIANS.—By a dispatch from Portland, Oregon, dated Dec. 10th, we glean the following in relation to an attack upon a party of prospectors:

Mr. Strickland, who with a party of sixty-eight men on the Wind River prospecting party, says about the 5th of September, near the head waters of Big Bow River, Bruce Smith and eleven others left the main body to prospect, intending to join them at the head waters of Big Bow. The main party camped on what was supposed to be the Big Bow, but proved a branch. Smith and party passed around this branch and camped on Big Bow. One of the party went to search for the main body, and on his return discovered that Smith and party had been attacked by the Indians and were still fighting. He thought the whites had scattered to the brush, and the Indians were still pursuing and hunting them out. It is supposed that all ten perished as none have been found or heard from. While the main party were searching for their comrades they were attacked by three hundred Indians, who came upon the camp at daylight. The fight lasted about two hours. Colonel Rice and William Smith were killed, three severely wounded and several others slightly. Mr. Strickland says nine Indians were known to have been killed and many wounded. A number of horses were killed, and wounded. The party, too weak to maintain themselves, struck out for Green River, with the intention of going to Arizona or Mexico.

Under the same date the telegraph says: A man named Hayes, was arrested at Waldo, on December 1st, charged with the murder of Wilson, at Crescent City, about three weeks ago. The body of Wilson was found concealed behind some logs near Crescent City. Hayes and a man named Foley were implicated by the Coroner's Jury.

A SPEECH FROM GOV. BROWNLOW.—In his speech at the League House, Philadelphia, Sept. 9th, he said:

I am going to start on Monday on an expedition to go round on Andy's track. Honest old John Minor Botts and the Parson are to act the Grant and Farragut [great laughter,] and Hamilton is to do the speaking. I love old Botts. We never differed but once, and that was the time he slept with John Tyler and scratched his back. He thinks that he committed a blunder then, and that I trumped him the time I put Andy in nomination for the Vice Presidency.

"JES SO!"—"EXACTLY!"—Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night he took Plantation Bitters; if he lacked appetite, weak, languid, or mentally oppressed, he took Plantation Bitters and they never failed to set him on his pins square and firm.

A few bottles of PLANTATION BITTERS Will cure Nervous Headache, Cold Extremities and Feverish Lips, Sour Stomach and Fetid Breath, Flatulency and Indigestion, Nervous Affections, Excessive Fatigue and Short Breath, Pain over the Eyes, Mental Dequency, Prostration, Great Weakness, Sallow Complexion, Weak Bowels, &c., which are evidences of

Liver Complaint and Dyspepsia.
After a long research, we are able to present the most pleasant, the most remarkable cure for those horrid nightmare diseases the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and of complaint has come to an

knowledge! It is a most pleasant and agreeable stimulant, suited to all conditions of life. The report that it cures upon internal substances for its active properties are wholly false. The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Basic indicators try to come as near our name and style as they can, and because a poor article cannot be sold as low as a good one, they find some support from parties who do not care what they sell, be on your guard. See our private stamp over the cork.

LYON'S KATHAIRON.

It is a most delightful Hair Dressing. It eradicates scurf and itching humors. It keeps the head cool and clean. It makes the hair rich, soft and glossy. It prevents the hair turning gray and falling off. It restores the hair upon prematurely bald heads. This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, and this is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

LYON'S EXTRACT GINGER.

LYON'S EXTRACT OF PURE JAMAICA GINGER.—For Indigestion, Nausea, Heartburn, Stomachic Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere at fifty cents a bottle. Ask for "Lyon's" Pure Extract. Take no other. See that the private U. S. stamp of Demas Barnes & Co., is over the cork of each package. None other is genuine.

MUSTANG LINIMENT.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment. For cuts, sprains, burns, swellings and caked breasts, the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment. For spavined horses, the poll evil, ringbone and swellings, the Mexican Mustang Liniment never fails.

For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold. Cuts, bruises, sprains and swellings are so common and certain to occur in every family that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped and scalded me terribly." The Mustang Liniment extracted the pain and caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad st., Phil. Mr. S. Litch of Hide Park, Vt., writes: "My horse was considered worthless (spavin) but since the use of the Mustang Liniment I have sold him for \$150. Your Liniment is doing wonders up here."

All genuine is wrapped in steel plate engravings, signed G. W. Westbrook, Chemist and also has the private U. S. stamp of Demas Barnes & Co., over the top. Look closely. Sold by all Druggists at 25, 50 cents, and \$1.

LYON'S FLEA POWDER.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder will perfectly destroy every thing in the shape of Fleas, ticks, bed-bugs, roaches, &c.; that it is perfect in its action on the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of Demas Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any Druggist will procure the genuine if you insist you will have no other.

TRY DESTINY.—MADAME E. F. THORNTON, an English Astrologist, Clairvoyant and Psychician, who has been the scientific friend of the Old World, now has located her beautiful parlour at No. 5, Madame Thornton possesses such a knowledge of the occult, as to enable her to give the most accurate and important to single or married of either sex. While in a state of trance, she delineates the very features of the face, and the position of the limbs, and the intense power, known as the "fluid of instruction," she gives the most accurate and important to produce a life-like picture of the future, and the life of the applicant, together with the marriage, procreation, and the fruits of matrimony, &c. This is no humbug, as the results are ascertained. TO-MORROW.
We can't recall the vanished past,
Nor on the future reckon;
The light-winged hours, flying past,
Us to embrace them, beckon.
No more let folly shroud thine eyes,
Live while 'tis called To-day;
What if your setting sun should rise,
To warm thy lifeless clay!

Life is not given; 'tis but lent—
And thousands yet would borrow.
For past, for present, time mispent
A day of grace To-morrow.
Oh, day of hope! oh, day of fear!
Foreboding joy or sorrow:
That comes not, though ever near,
To-morrow! still To-morrow!

No wrong will ever right it self!
No man ever sins at HALF-PRICE!
The chief of the Devil's staff is SELF!
There is no sin we can be tempted to
commit, but we shall find a greater satisfaction
in resisting—Mason.

I never knew how it was, but I always
seemed to have the most come in when I
gave the most away.—Baxter.

He who is not willing to fill a place he
is fitted for, will find no place fitted for
him to fill!

We should give as we receive, cheerfully,
quickly and without hesitating to give
no grace in a benefit that sticks to the fingers.

He who has not forgiven an enemy, has
never yet tasted one of the most sublime
enjoyments of life.—Savater.

He who cheerfully commits the universe
to God has nothing in the universe to fear!
Think little of your self, and you will
not be injured when others think little of you!

"Do draw up the curtain, mother,"
said a little child from her trundle-bed,
"for I want the eyes of Heaven to keep
watching me all night. If I wake up, I
love to look at them; if I don't wake up,
they still look down on me."

SUICIDE OF AN ACTRESS.—We find it announced in our telegraphic dispatches that Julia Thoman (nee Pelby) committed suicide, in Boston, yesterday, by taking laudanum. Deceased was very well known in this State, having been among the earliest professionals who visited San Francisco from the East. Before time and the rigidity of a stage life wrought upon her, she possessed much personal beauty and some ability as an actress, particularly in singing and light burlesque.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PEREAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PEREAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 4, 10, 11, first floor, upstairs entrance either Montgomery or Sacramento streets.

DR. PEREAULT's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward: patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples on the face and itching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PEREAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Stricture, Bubos, Ulcers, Catarrhus Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PEREAULT's diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation: claim not to know everything, nor to cure everything, but we do claim that in all cases taken under our treatment we fulfil our promise. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.
Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PEREAULT is the only agent in California for Dr. Bore's Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppression and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PEREAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 972, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

Dr. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them, that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhea, Gleet, Stricture, and all the attendant evils, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to supply the most efficient and successful remedies against diseases of all kinds, and has no hesitation in saying that he has cured more patients in a correct and honorable manner, and has no equal in the treatment of these diseases, and has no equal in the treatment of these diseases, and has no equal in the treatment of these diseases.

Dr. DOHERTY would call attention to the following certificates from his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen that the statements are fully authenticated by a Notary Public.

The welfare of society imperiously demands their publicity and they are given more to warn the many than to sound the praise of the few. Of whom hundreds of lives have been saved during a practice of more than fifteen years.

DR. DOHERTY.—Dear Sir: I feel my health so fully restored, that in common acknowledgment I should make you some written acknowledgment for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of cure were not deceiving me, I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have consulted, and the only one that has ever done me any service. My Gleet was wholly cured, Stricture is removed, and my general health is better than it has been for years.

In your private medical advice, if you have any advice to whom you may employ, ask Dr. DOHERTY for my address and call on me (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhea, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
San Francisco, June 16, 1884.

Subscribed and sworn to before me, this 21st day of June, A. D. 1884.

A. S. GOULD, Notary Public.

Seminal Weakness—A Sworn to Certificate of a most Remarkable Cure of Spermatorrhoea.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. DOHERTY, alone induce me to make this statement. For many years I have been afflicted with this fearful disease, the result of "Spermatorrhoea," or Seminal Weakness, but till 1883 experienced, but little relief or inconvenience. In that year, however, I had Seminal Weakness as an alarming extent, which was followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness, general debility, and a feeling of depression.

My ideas were confused and spirits depressed. I was averse to society, had evil forebodings and a feeling of being entirely unfit for any kind of the duties of life, and was entirely unable to perform them.

I had the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had at last concluded there was no relief for me in this world, but seeing Dr. DOHERTY's advertisement, I thought I would call and see him, as he charged but little for his services.

On the 13th of December, I called on Dr. DOHERTY at his office, and after a few minutes' conversation, he determined to try him, though I did not expect much benefit from his treatment. He gave me a written statement of such, in preference to holding a personal interview, and he was respectfully assured that their communications will be held most sacred. Dr. DOHERTY takes this opportunity of observing, that all letters are only sent in reply to be replied to by himself, and the latter are promptly as possible.

If the case be fully and candidly described, personal communication will be entered into, as in the case of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purpose of the letter or parcel so transmitted, and consultation at no office risk. For permanent cure guaranteed or no pay. Address, W. K. DOHERTY, M. D., San Francisco, California.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of forty years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of cures, among the very first of the world.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubly his dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffie the efforts of medicine. WHEN PERFECT CURES can be obtained by consulting a physician who long practice and thorough investigation into the causes of DISEASES OF THE URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY AND PERMANENT.

Cures are Always Guaranteed.
In syphilis and its adjuncts: Gonorrhea and its accompanying diseases; and all diseases of the Bladder, Kidneys, and Prostate; Seminal Weakness, Diseases of the Heart and Lungs; Dyspepsia; Indigestion; Impotency; Incipient consumption, and all diseases of the urinary organs. In every case, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhoea.
The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable fainting of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing weakness, loss of muscular power, and the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away of his powers, destroying his hope of life and manhood, and dragging him along the broken path of hood, and towards a premature and loathsome grave. To him who finds his life dripping out in the discharge of the vital principle of life, the mere cessation of his appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he cannot but add to his misery for so much of her happiness, as a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disaster, and thereby leaves him in the power of the disease, and the victims of solitary rage, that dreadful, fascinating and destructive habit, which kills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address him, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.
When a female is in trouble or afflicted with disease and requires medical or surgical aid, the only person to whom she should apply is a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community. The Doctor understands how imperative necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for thirty years, and is fully qualified to save them in a successful manner, both in as thorough a manner as years of study and practice—both in hospital and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and help them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are generally viewed to be the safest and surest remedies for female complaints for which they are applied. The constantly accruing testimonials of their efficacy are them to be pre-eminently superior in their action. No lady should be without these Remedies Agents. None genuine unless procured at this office.

To Correspondents.
Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. DOHERTY on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. DOHERTY takes this opportunity of observing, that all letters are only sent in reply to be replied to by himself, and the latter are promptly as possible.

If the case be fully and candidly described, personal communication will be entered into, as in the case of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no purpose of the letter or parcel so transmitted, and consultation at no office risk.
